

# CRA WEDNESDAY NIGHT SERIES TAKE A JUNIOR RACING

PRESENTED BY QUANTUM SAILS

Quantum Sails is committed to growing the sport of sailing in fun and innovative ways. Our San Diego team is proud to offer something new this season which we hope will help connect different groups within the local sailing community. Over the past few decades, high level junior sailing has encouraged the current generation to focus on racing dinghies in strict W/L formats amongst their peers. It has made them great at tactics, strategy and trimming, but opportunities to expand the scope and be part of a bigger team with experienced sailors has lapsed. We also constantly hear from keelboat race skippers who are struggling to find good quality crew. With this in mind, Quantum Sails San Diego has launched a simple and safe way to connect these two groups and help grow the game.

## BOAT OWNERS

Fill out the questionnaire by scanning the QR code and your information will be collected on a private database. The Quantum team will maintain the security and only parents of junior sailors will be given access after they are vetted. Parents will be able to contact you directly via your preferred method so that communication is simple, clear and easy. We will spread the word through existing Yacht Club Junior Sailing Directors and Coaches, so the sailors will have some pretty good knowledge from the get go. Additionally, feel free to invite a parent onboard too, they could be great prospective crew for future races!

## JUNIOR SAILORS & PARENTS

Fill out the form linked below for your child and we will grant viewing access to the list of boats accepting junior crew. After vetting, it's just a matter of finding the right fit for your sailor from the list of boats and teams. If you are unsure who may be a good fit, give our team a call and we can help make some recommendations. Then simply reach out to the boat owner via their preferred method of communication. This is an amazing opportunity for kids to interact with adults on semi-equal footing and can be a huge confidence builder for your sailor both on and off the water.

## QUANTUM SAN DIEGO

Our team members were fortunate to grow up in well rounded junior programs that taught both dinghy and keelboat skills with diverse backgrounds of people. We were introduced to racing bigger boats by those around the waterfront looking for crew for weeknight races. We're excited to start this program that is near and dear to us, and hope it broadens opportunities for local junior sailors. Reach out to our team at any time for assistance or to learn more about the program.
